Profile

Technical Support Engineer with experience supporting web and mobile applications, API integrations, and authentication systems. Proficient in troubleshooting complex technical issues using Chrome DevTools, system logs, and monitoring tools. Skilled in REST APIs, GraphQL, and SSO protocols including OAuth, SAML, and SCIM. Experienced in incident resolution, technical documentation, and collaborating with cross-functional teams to improve system reliability and customer experience.

Education

B.Sc. Computer Engineering, Specialization in Artificial Intelligence.

Sep 2021 - Mar 2025

Vistula University, Warsaw

- Developed a strong foundation in REST APIs and GraphQL APIs, with experience in API integration and troubleshooting.
- Gained hands-on experience in diagnosing and debugging web and mobile applications using Chrome DevTools, application logs, and monitoring tools.
- Studied authentication protocols such as OAuth, SAML, and SCIM, understanding their role in Single Sign-On (SSO) and identity management.
- Built problem-solving skills through coursework in computer networks, operating systems, and software engineering.
- Worked on AI-driven projects requiring technical research, debugging, and system performance analysis.
- Familiar with Linux, Windows environments, cloud platforms, and scripting for automation.
- Experience in writing technical documentation and contributing to internal knowledge bases.

Cambridge International Advanced Subsidiary Level Certificate

Jan 2019 - Nov 2020

Watershed College, Marondera, Zimbabwe

Mathematics, English Language, Physics, Chemistry, Biology

Employment

Technical Service Desk Agent

Sep 2025 - Present

Monday.com - Foundever, Warsaw

- Provided tier-1 and tier-2 technical support to end-users, resolving hardware, software, and network issues promptly.
- Utilized remote troubleshooting tools and diagnostic techniques to identify and resolve user problems across various platforms.
- Documented technical issues and solutions in a detailed knowledge base to improve team efficiency and customer satisfaction.
- Collaborated with cross-functional teams to escalate and resolve complex technical issues while maintaining detailed service records.
- Conducted user training sessions and created technical guides to enhance customer understanding and reduce recurring support requests.

Customer Success Advocate Support
Square - Foundever, Warsaw

Feb 2025 - Jun 2025

- Provided technical support and troubleshooting for e-commerce platforms, assisting users with website setup, customization, and issue resolution.
- Guided users through domain management, DNS configurations, and third-party integrations to ensure seamless online operations.
- Assisted customers with Google Workspace setup, email configurations, and authentication troubleshooting.
- Diagnosed and resolved API-related issues, ensuring proper communication between the platform and third-party applications.
- Investigated website performance, security settings, and backend configurations using developer tools and system logs.
- Supported users with account access, Single Sign-On (SSO), OAuth, and other authentication mechanisms.
- Contributed to technical documentation and internal knowledge base, improving troubleshooting efficiency.
- Escalated complex technical issues to appropriate teams while maintaining detailed case logs and ensuring timely resolutions.

Customer Success Advocate
Abbott - Foundever, Warsaw

Jul 2024 - Sep 2024

- Provided technical support and troubleshooting for healthcare devices, assisting users with setup, calibration, and issue resolution.
- Diagnosed and resolved device connectivity, software, and data synchronization issues for web and mobile applications.
- Guided customers through API integrations, data access, and troubleshooting related to device compatibility with third-party applications.
- Assisted users with authentication and account security, including Single Sign-On (SSO), OAuth, and other access management protocols.
- Investigated and analyzed device logs, application data, and error reports to determine root causes of technical issues.
- Documented recurring technical issues and contributed to internal knowledge base content, improving support efficiency.
- Provided proactive customer education, ensuring optimal usage and troubleshooting of healthcare technology.
- Escalated unresolved issues to specialized teams while maintaining detailed case documentation and follow-up procedures.

Data Protection, Customer Support Agent
Microsoft - Majorel(Teleperformance), Warsaw

Feb 2022 - Sep 2023

- Provided technical support and troubleshooting for customer data protection issues, ensuring compliance with privacy policies and security protocols.
- Assisted clients in diagnosing and resolving data-related concerns, including access control, authentication, and security configurations.
- Investigated and resolved complex customer inquiries using application logs, monitoring tools, and debugging techniques.
- Supported API-related customer requests, guiding users on data access, integrations, and security best practices.
- Documented recurring technical issues and contributed to internal knowledge
